Summer Camp 2024

This summer, join Constructor University's unique camp program designed to expand your knowledge in specific subjects, learn German language, participate in fun outdoor activities and sports, and visit exciting sites. You'll also have the chance to socialize and network with fellow students while having a great time!

- Expand your knowledge in specific subjects (mathematics, programming, chemistry, biology, economics, finances, etc.)
- Make friends with students from all over the world
- Participate in fun activities & visit exciting sites

"Thinking back on my unforgettable summer at Constructor University in Bremen, I'm truly grateful for the incredible people I met and the diverse cultures I discovered. This summer camp wasn't just about learning; it was about forging global friendships and broadening my horizons in ways I'll always treasure, I am happy to have been part of this incredible experience and to have come all the way from Morocco to represent my country in the best possible way."

Taha Hbirri, Morocco
