### 1. About this handbook

This handbook contains the descriptions of the language modules which are an integral part of the undergraduate and graduate study programs at Constructor University. It is valid as of Fall 2024.

### 2. Introduction of the German Language Program

The Language and Community Center (LCC) offers German language courses, which are part of the curriculum and provide ECTS credits. The status of the German module for all undergraduate students is mandatory elective, which means they either choose two courses of German or as an alternative two lectures in Humanities.

In addition to the two mandatory elective classes, students may continue to enhance their German language skills at the Language and Community Center and further courses will show on their Transcript of Records.

All German classes are taught according to the *Common European Framework of Reference for Languages* (CEFR) and a maximum of two courses will be rewarded with 2.5 ECTS. At the end of each proficiency level (A2-C1) eligible students will have the opportunity to register for the internationally recognized telc language certificate exams.

### 3. Course Registration and placement test

The placement test is offered during the last week before the semester starts and helps instructors place students in the appropriate proficiency level. The placement test is neither graded nor does it affect the final grade of the language course. The test specifies the level of proficiency based on the *Common European Framework of Reference for Languages* (CEFR).

The test is done online (spring and fall semester) and must be completed independently two days before registration ends. The 'instruction for the placement test German' form students can find on the LCC website.

Students without any prior knowledge of German can register for A1.1 without taking a placement test. Please note that it is an infraction of the Code of Academic Integrity if students with pre-existing knowledge of a language attend the beginners' level(s). Students who already passed a language course in the previous semester can register for the next level directly without taking a placement test.

German native speakers or students with C1 proficiency level may directly choose the Humanities lectures.

#### 4. Attendance

Regular class attendance and the assigned work in the virtual classroom is a pre-requisite for the module assessment (the final exam): Students are allowed to have a maximum of three unexcused absences, the assigned activities in the virtual classroom count as attendance. Students who missed more than ten sessions (whereby at least seven sessions are official excuses) are requested to consult the German Study Program Coordinator before a decision regarding the admission to the module assessment or its grading can be made.
